

Value of the SBRI Healthcare programme - economic and clinical view

Professor Tony Young
National Clinical Director for
Innovation NHS England,
Consultant Urological Surgeon
Southend University Hospital,
Director of Medical Innovation
Anglia Ruskin University

Introducing our

GLOBAL HEALTH ENTERPRISE

A **Global Health Enterprise** Partnership

The MedBIC

NHS England

- Population 54m
- Budget £110bn
- Average life expectancy 79m/83f
- 1.3m employees
- Deals with 1m patients every 36 hours
- 75m OPD and 15m IP

- The dogmas of the quiet past, are inadequate to the stormy present. The occasion is piled high with difficulty, and we must rise with the occasion. As our case is new, so we must think anew, and act anew. We must disenthrall ourselves, and then we shall save our country.
Abraham Lincoln Dec 1862

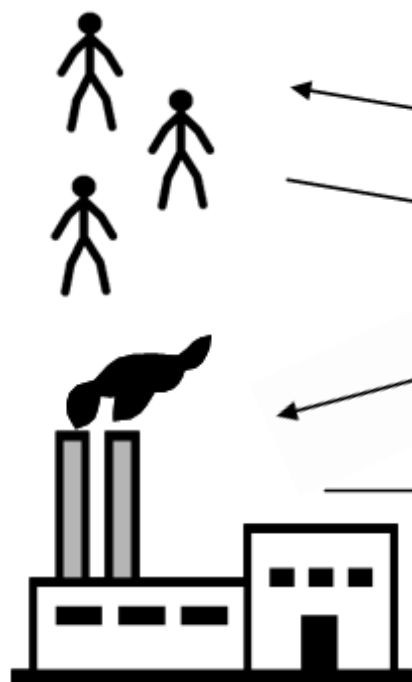

Creating a system for delivery

- Academic Health Science Networks – 15 set up to lead work in the NHS on adoption and invention of ideas
- Med-Tech Innovation Briefings
- Innovation Connect and Exchange
- Funding – RIF, Challenge Prizes, SBRI, CQuin
- NICE Implementation Collaborative

What the NHS needs

- Partnerships that allow innovative solutions

Clinicians/Academics/Companies + Customers (AHSN's)
