# Small Business Research Initiative (SBRI) Healthcare Programme

## Competition 22 Briefing Event

*The***AHSN***Network*

Time	Topic	Presenter
11:30 – 11:35	Welcome and introductions	Caterina Lombardo
11:35 – 11:40	Introduction to the Accelerated Access Collaborative	Lindsay Hughes
11:40 – 11:50	Introduction and overview of the SBRI Healthcare Programme and Competition 22	Rhanda Tajdeen
11:50 – 12:00	Delivering a Net Zero NHS – overview of the challenges	Nick Watts
12:00 – 12:10	Q&A	All
12:10 – 12:25	Insights and tips from successful Phase 1 award holders	Tom Dawson & Nathan Moore
12:25 – 12:35	The AHSN Network	Pete Waddingham
12:35 – 12:40	The application and assessment process	Rebecca Stevens
12:40 – 12:55	Q&A	All
12:55 – 13:00	Closing remarks	Caterina Lombardo

## Speakers

- **Lindsey Hughes** is Director of Research and Engagement in the Innovation, Research and Life Sciences (IRLS) Group and Accelerated Access Collaborative at NHS England and Improvement.
- **Dr Nick Watts** is the Chief Sustainability Officer of the NHS, responsible for its commitment to deliver a world-class net zero emission health service.
- **Tom Dawson** is the founder of Revolution-ZERO, a net zero, circular economy focused PPE solution.
- **Nathan Moore** is a trauma and Orthopaedic Specialist Training Registrar in the NHS and Founder/Director of Primum Digital Ltd.
- **Pete Waddingham** is a Programme Manager at Yorkshire and Humber Academic Health Science Network

# Delivering a Net Zero NHS: Clinical Innovation Competition

Lindsey Hughes

Director of Research and Engagement

11<sup>th</sup> August 2022

@Accelerated Access  
Collaborative

@AACInnovation

*The***AHSN***Network*

The AAC is a unique partnership between patient groups, government bodies, industry and NHS bodies

We work together to streamline the adoption of new innovations in healthcare:

**PARTNER ORGANISATIONS**

**BOARD\***

Lord Darzi      Amanda Pritchard      Matt Whitty      Dr Sam Roberts      Prof. Chris Whitty

**ACCELERATED ACCESS COLLABORATIVE**  
\* Selected AAC Board Members

The **AHSN** Network

The Accelerated Access Collaborative brings together industry, government, regulators, patients and the NHS

- It **removes barriers** and **accelerates the introduction of ground-breaking innovations** which will transform care
- We support the NHS to more **quickly adopt** clinically and **cost-effective innovations**, to ensure patients get access to the best new treatments and technologies
- Innovations include **medicines, diagnostics, devices and digital products**
- We ensure that research and innovation **meets the needs** of the public, patients and the NHS

# We set five priorities for the next two years

All of our work will be informed by patient experience and will support addressing health inequalities, NHS England's clinical priorities, net zero targets and the life science vision.

## Increase the scale, diversity and speed of research

Increasing the scale, diversity and speed of research so that the NHS has the clinical evidence that reflects the population, in turn making it easier to adopt innovations that benefit all.

## Frontline innovation

Supporting programmes that help the NHS workforce to develop, evaluate and drive innovation on the front line.

## Delivering transformational commercial deals at scale

Negotiating great deals at scale that support rapid roll out of the most promising innovations.

## Articulating NHS needs and finding solutions

Signalling to researchers, funders, innovators and industry what the NHS needs while also systematically searching for new solutions to high priority areas of need.

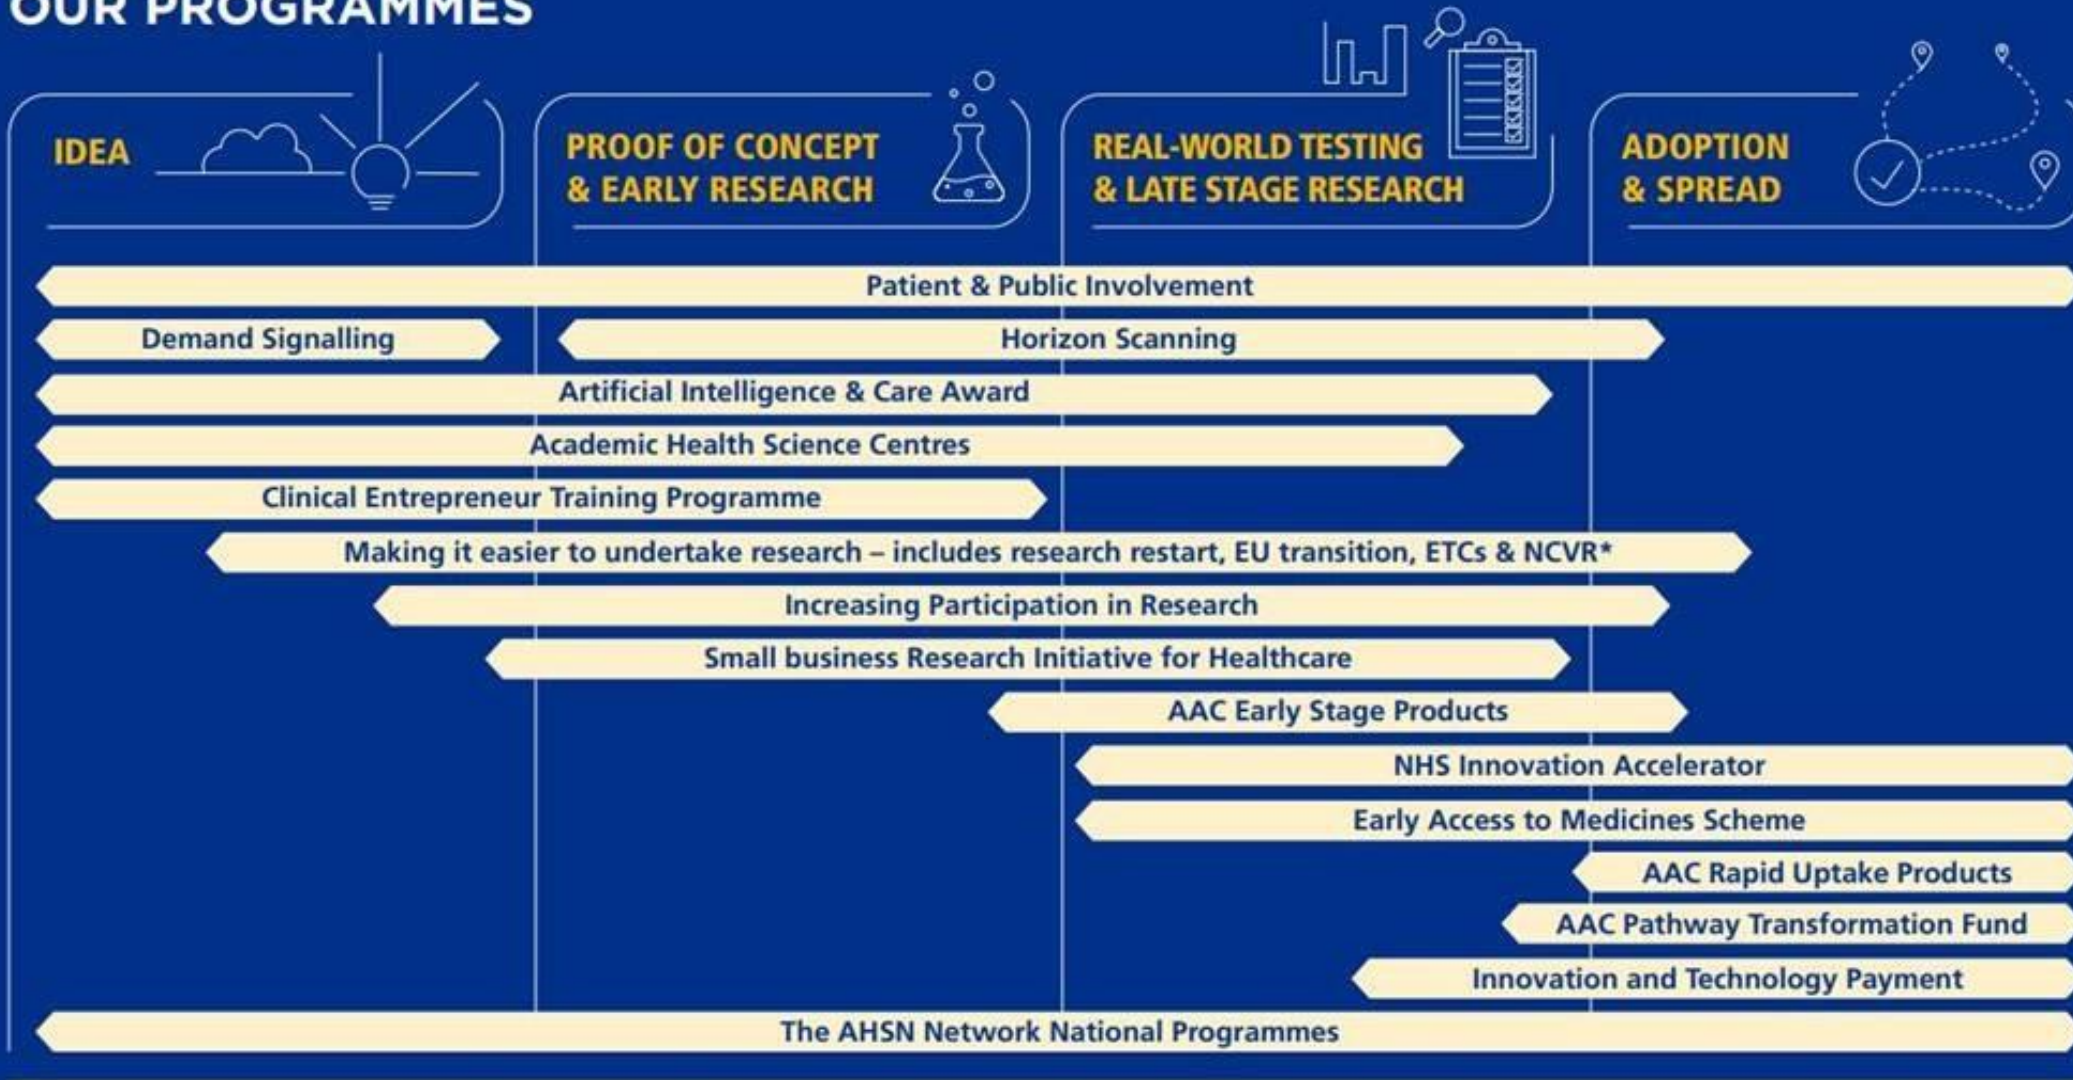

## Supporting the most promising innovations

Working to increase uptake of NICE approved innovations from medicines, diagnostics, medical devices and digital products.

# What we do

## OUR PROGRAMMES

The Innovation, Research and Life Sciences programmes span the entirety of the research and innovation pathway, to get the best innovations to patients, faster.

# Our impact in the last year

# 577,709

## Patients are accessing our innovations

Across **762** sites

Estimated patient benefits include:

# 1,622

fewer clinical visits

# 10,312

fewer days spent in hospital

2,465  
Jobs have been created

£18.1m of in-year savings have been delivered to the NHS

2,804 innovators are being worked with

3,092 innovations are receiving our support

# AAC contribution to Net Zero ambitions

# Overview of the SBRI Healthcare Programme and Competition 22

Rhanda Tajdeen

Senior Programme Manager, SBRI PMO

*The***AHSN***Network*

# About SBRI Healthcare

- Pan-government, structured process enabling the public sector to engage with innovative suppliers
- AAC programme managed by LGC Group & supported by the Academic Health Science Network (AHSNs)

Improve patient care

---

Increase efficiency in the NHS

---

Enable the NHS to access new innovations through R&D that solve identified healthcare challenges and unmet need

---

Bring economic value and wealth creation opportunity to the UK economy

---

# The AHSN network

# Funding landscape

# Key features

Themed competitions to address identified unmet NHS challenges at early and late stage of innovation

- Particularly suitable for SMEs, but any size of businesses is eligible
- Other organisations from public and third sectors (including charities) are eligible as long as the route to market is demonstrated
- Based anywhere in Europe

At early stage of innovation the Programme has a phased development approach

- Phase 1, feasibility project (6 months, up to £100K, NET)
- Phase 2, development project (12 months, up to £800K, NET)

Late stage of innovation

- Phase 3, real-world evidence and implementation (12 months, up to £500K, NET)

# Phase 1 and Phase 2 expected exit points

Establish the technical merit, feasibility, and commercial potential of the proposed technology:

- Feasibility technical study
- Market validation
- Business plan
- Clinical partners identified
- Evidence generation plan for adoption
- Development of PPIE strategy
- Health inequalities impact assessment

## Phase 1

- Minimal Viable Product developed
- Early clinical evidence gathering to demonstrate accuracy (and safety)
- Commercialisation strategy: business model, price strategy
- Health economics
- Evidence gathered towards regulatory documentation
- Implementation plan for adoption
- Next stream of funding identified / investment readiness if applicable
- Demonstration of strong involvement and engagement with patients and members of the public

## Phase 2

# Portfolio snapshot

**265**  
supported

**£109m+**  
Total invested

# Portfolio snapshot

 **81**  
Companies with commercial revenues

**47**   
products exported

  
 **67**  
Companies with sales in the NHS

**162**   
IP granted

**£60m+**   
revenue generated

**£607m+**  
Private investment leveraged

**1,776**   
jobs created/retained

 **936**  
New collaborations established

**>7.2m**   
patients involved through sales and trials

 **18,810**  
Sites accessed through trials of sales

# Portfolio snapshot

LapAR is a laparoscopic training platform to democratise access to high fidelity laparoscopic surgical training

- Adopted by 8 deaneries for deanery-wide surgical training
- Adopted by 2 multinational medical technology companies (Olympus, Johnson and Johnson)
- Used to perform over 6,000 simulated surgical procedures since 2020
- Early evidence to show a 41% reduction in time to operate as a result of improved skill and confidence
- Health economics studies suggest the technology will result in a £115m per year cost saving to the NHS
- Exported to 4 continents

**ACCELERATED

*The***AHSN***Network*

Evidence-base, accessible and non-stigmatising digital therapeutic intervention to tackle childhood anxiety generating real-time data

- Rolled out across 16 regions in the UK
- CE marked
- NHS DTAC assessment complete, DSP Toolkit published
- Partnerships with University of Reading, MindTech, Greater Manchester Mental Health Trust, Norfolk and Suffolk Foundation Trust, University of Manchester, BADTA

# Portfolio snapshot

Supporting the UK's biggest workforce, our 7 million family carers

- 33,000 carers engaged through SBRI project
- Follow up paid trials in progress in both social care and NHS settings
- Pipeline of over 20 organisations (ICS, Social Care, NHS Acute, Community)
- Microsoft partner and strong links with Social Care
- Serco operational partnership
- Solution maps into £60m social care innovation fund launching in May 2022 for Local Authorities to call down on

**ACCELERATED

Yorkshire  
& Humber  
**AHSN**

1. A quick **overview** of the **AHSN Network**
2. A small **flavour** of some of our work
3. An overview of **areas of support**

# A connected 'Network of Networks' – spreading healthcare innovation at pace and scale

**We are the innovation  
arm of the NHS**

We are **catalysts** for innovation

We **connect** partners across sectors

We **create** the right environment for  
change

We are **collaborators**

# AHSNs work locally

Each AHSN is embedded in its regional health and care community

Local Structures change e.g. Y&H "Digital Hubs"

'Finger on the Pulse'

Yorkshire  
& Humber  
AHSN

## ... and nationally

Each AHSN is part of the national AHSN Network:

- a unique collaborative of expertise and experience
- sharing learning
- pooling intelligence
- benefitting from a pipeline of emerging and proven solutions from around the country

Yorkshire  
& Humber  
**AHSN**

# AHSN Sustainability Community of Interest

- Formed over a two years ago
- Representation from each of the AHSNs
- Developed a strategy / where we add value
- Share Learning
- Showcase Innovations / Case studies / Supporting Projects

Yorkshire  
& Humber  
**AHSN**

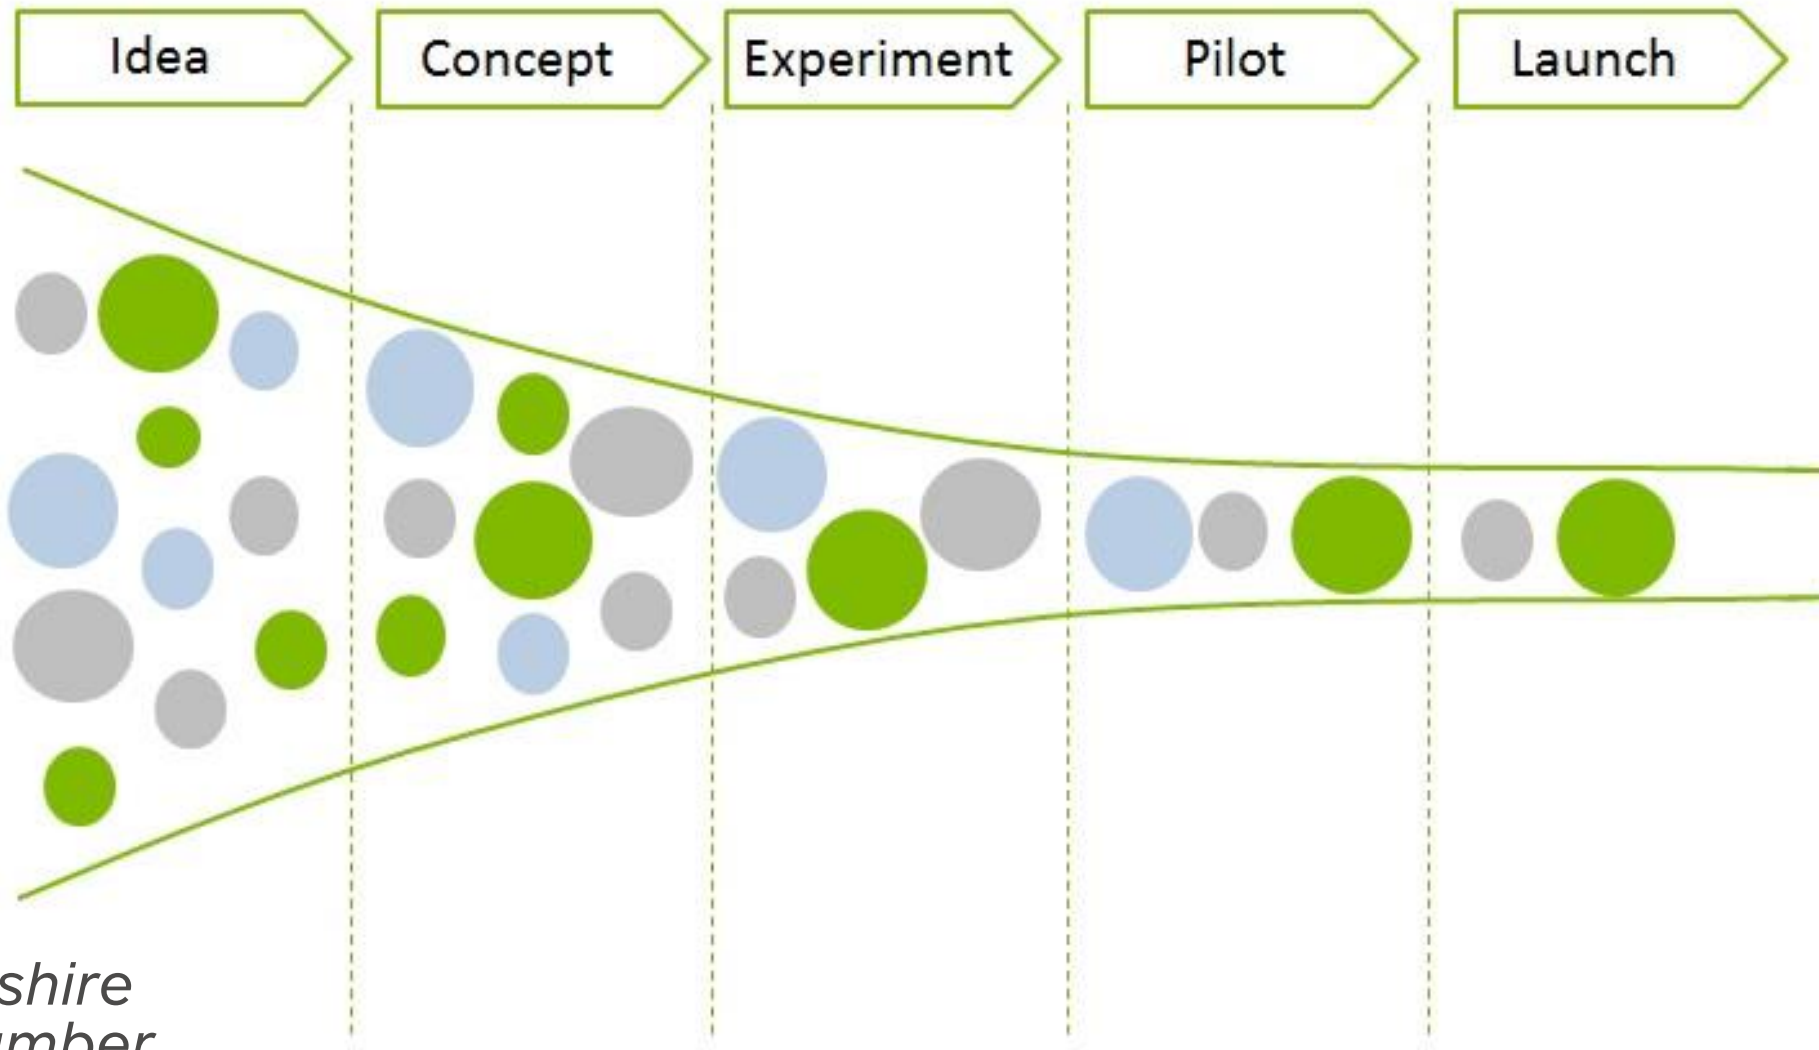

# **The “Delivering a ‘Net Zero’ National Health Service” publication references innovation and the AHSNs:**

**To support the future development and adoption of new technologies and innovations, the NHS will:**

- Work with the Academic Health Science Networks (AHSNs) to embed net zero into the AHSNs’ business as usual processes, working with them to develop a network-wide ambition and identify specific ways of working to promote the drive to reach net zero**

# Innovation Pipeline

Sources of carbon emissions

## Submit your climate tech innovation

If you have an innovation that could help the NHS reach its sustainability target fill in the form below. This will help us understand the benefits of your innovation, your progress to date and where we could help you.

### Climate tech innovations

**Eastern AHSN**

If you have an innovation that could help the NHS reach its sustainability goals we would love to hear from you. Just complete the form below to help us understand your innovation, progress to date and where we could help.

# West Net Zero Challenge

The West of England Academic Health Science Network (AHSN) and the [Health Technology Hub](#) based at the University of the West of England are launching a new initiative to support innovators and to support the [NHS's commitment to reducing its carbon footprint](#).

The initiative – **West Net Zero** – is calling for small and medium-sized enterprises (SMEs) with sustainable innovations in the West of England to apply.

We are seeking those that have either new sustainable innovations or already existing products that can be adapted to help the NHS lessen its environmental impact, in line with its ambition of having 'net zero' emissions by 2040 and who may benefit from the expertise and support offered by the Health Technology Hub and the West of England AHSN Industry and Innovation programmes.

The programme is also looking for companies that are already based in, or are working with, an NHS organisation in the West of England\* area.

## Propel@YH Net Zero- Innovator Showcase Event

Posted: *7th December 2021*

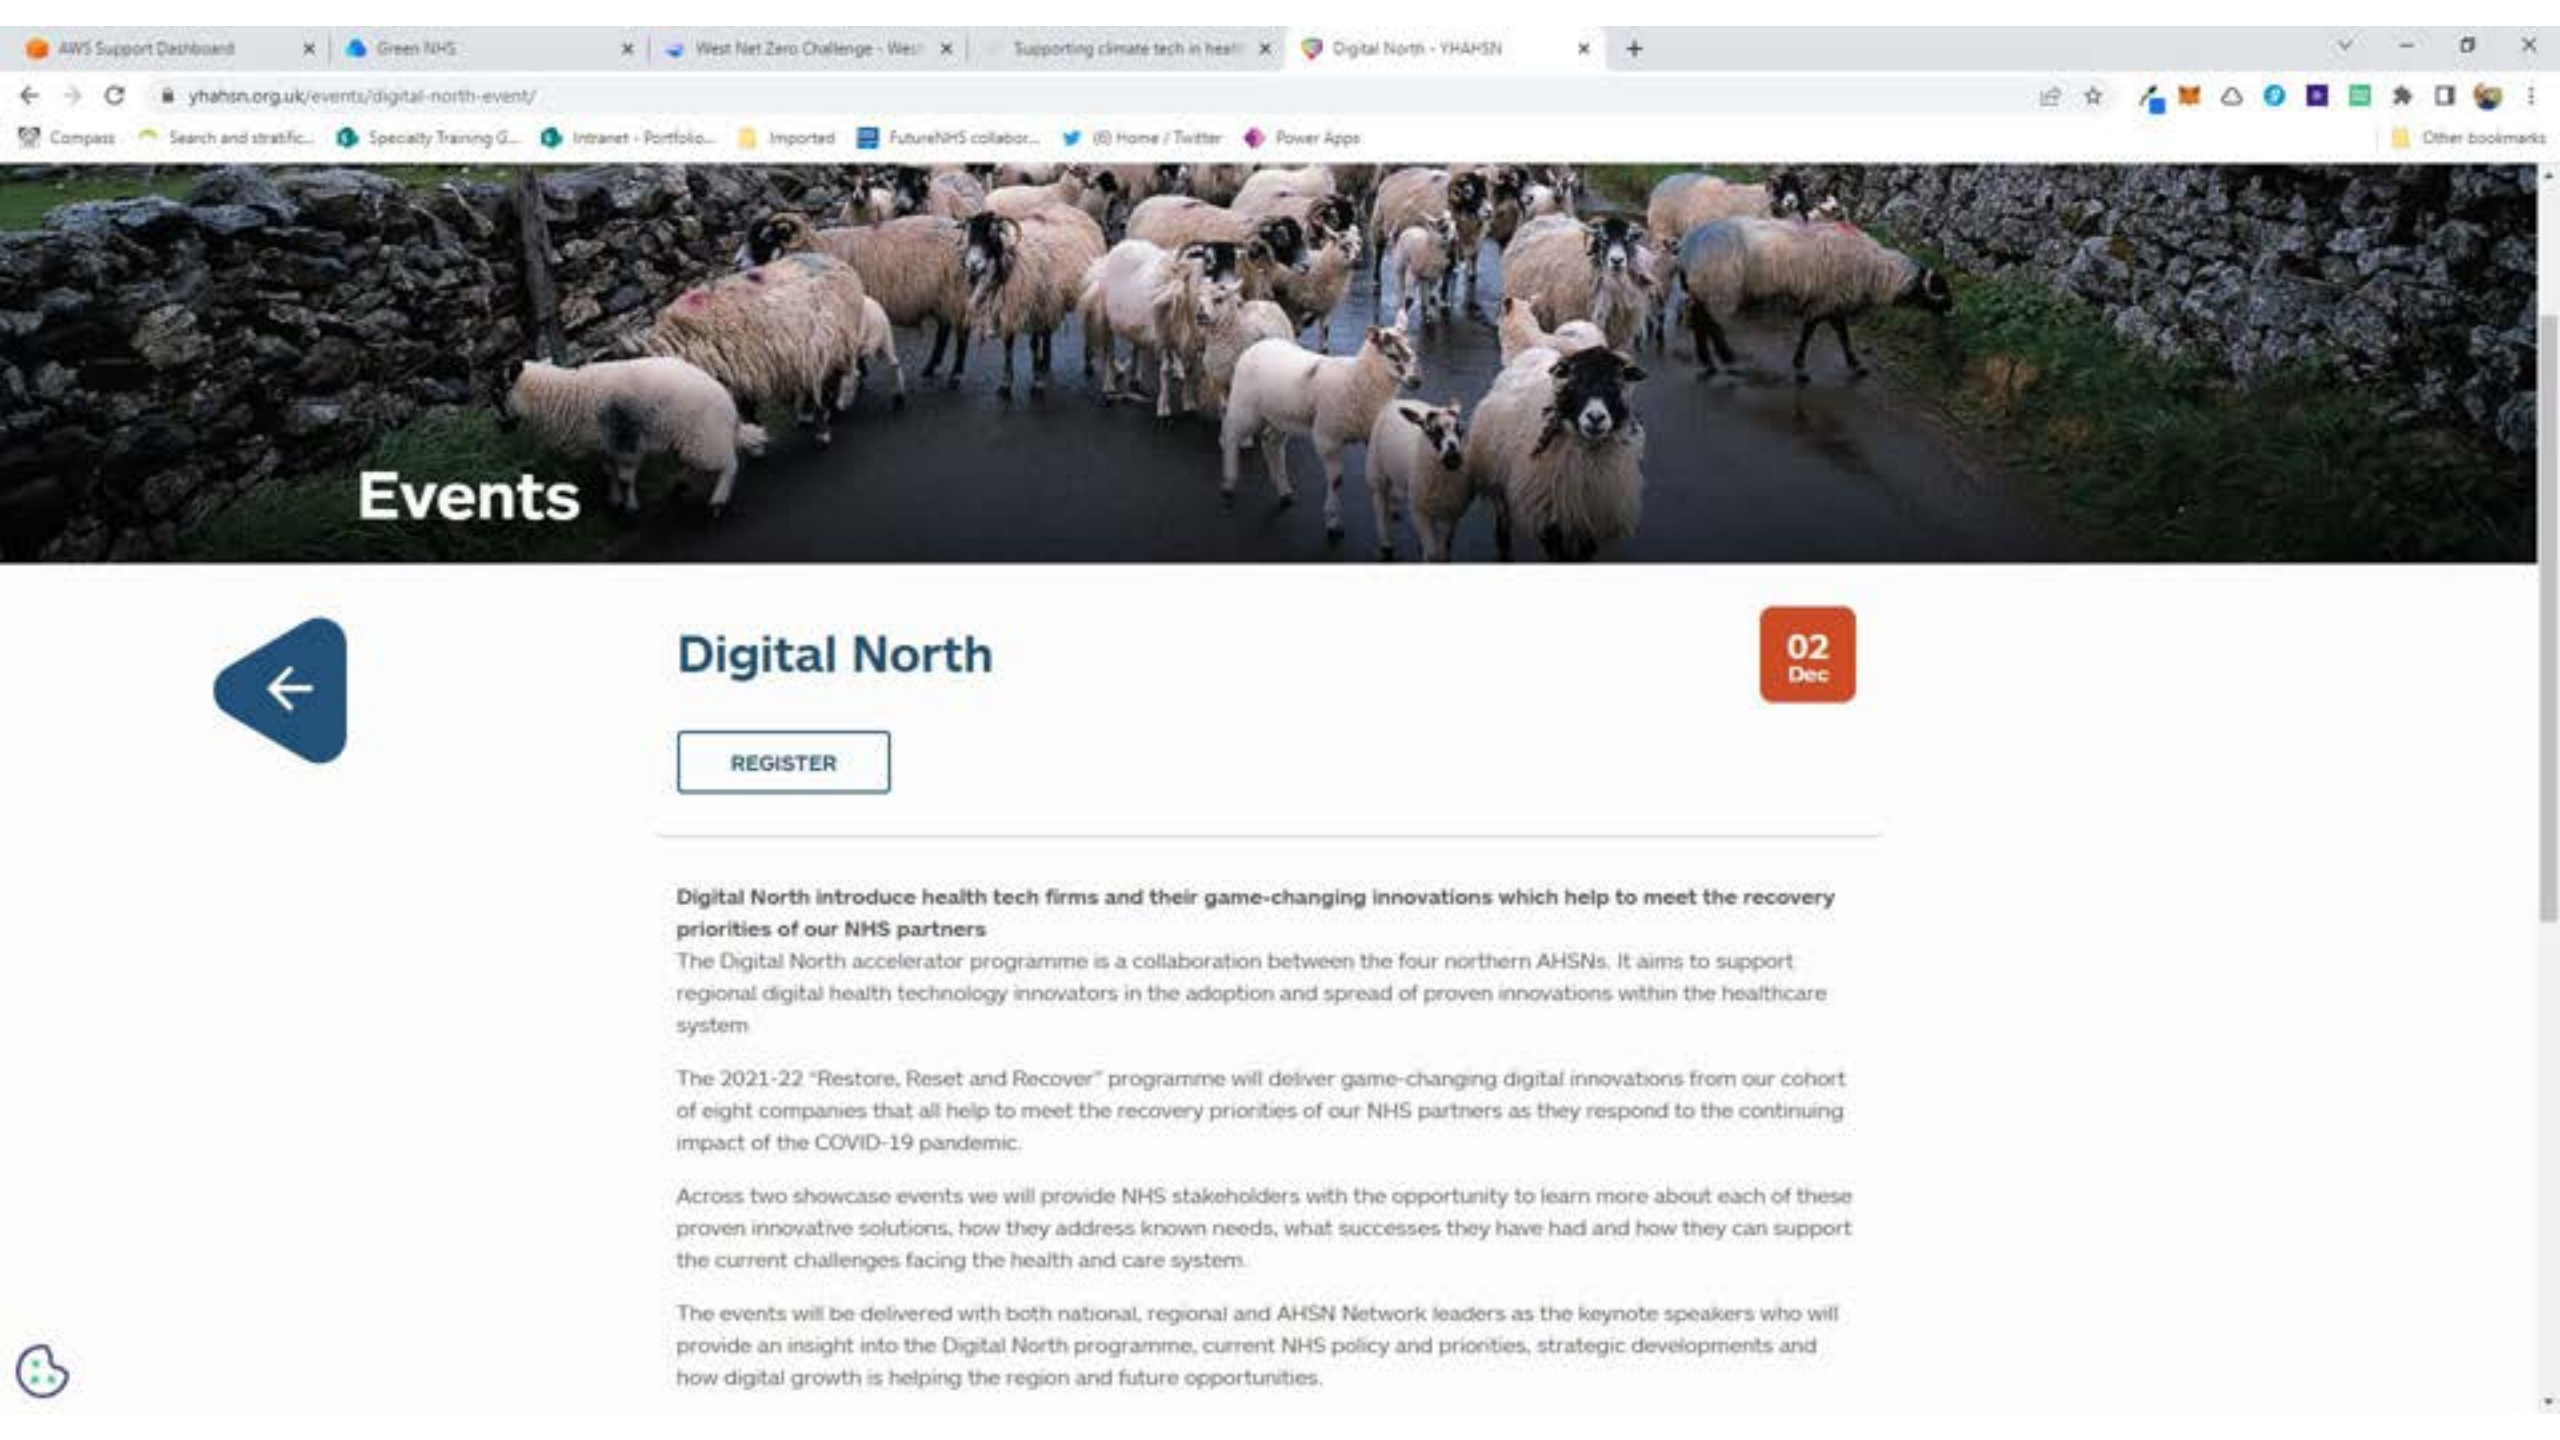

Propel@YH Net Zero was set up as a pilot accelerator programme to support a number of SMEs with a green innovation to develop their products and promote spread across Yorkshire & Humber. The programme, which consisted of a series of masterclasses and mentoring sessions ran throughout the summer with our Propel@YH Net Zero Cohort.

To celebrate the end of the programme and showcase these green innovations to our NHS stakeholders a small event was held on the 30th November 2021. Speakers included:

- Frank Swinton, Climate Change Lead for West Yorkshire Health and Care Partnership who introduced the session and highlighted the role of innovation in supporting climate change
- Kathy Scott, Deputy CEO for Yorkshire & Humber AHSN who shared information on the AHSN Network and YHAHSN strategies and work to support the NHS Net Zero ambitions.
- Victoria Vaines, Programme Manager at Yorkshire & Humber AHSN presented on the Propel@YH Net Zero programme and outcomes.
- Tom Gausden, Senior Business Manager at Patients Know Best described what PKB is, what it does and its impact.
- Ewa Truchanovicz, Managing Director at Dignio described the Dignio platform, what it does and its impact for patients and healthcare.

## Digital North

02  
Dec

REGISTER

### Digital North introduce health tech firms and their game-changing innovations which help to meet the recovery priorities of our NHS partners

The Digital North accelerator programme is a collaboration between the four northern AHSNs. It aims to support regional digital health technology innovators in the adoption and spread of proven innovations within the healthcare system

The 2021-22 "Restore, Reset and Recover" programme will deliver game-changing digital innovations from our cohort of eight companies that all help to meet the recovery priorities of our NHS partners as they respond to the continuing impact of the COVID-19 pandemic.

Across two showcase events we will provide NHS stakeholders with the opportunity to learn more about each of these proven innovative solutions, how they address known needs, what successes they have had and how they can support the current challenges facing the health and care system.

The events will be delivered with both national, regional and AHSN Network leaders as the keynote speakers who will provide an insight into the Digital North programme, current NHS policy and priorities, strategic developments and how digital growth is helping the region and future opportunities.

# AHSN Support (Personal Reflections)

- Funding – identifying sources (Funding bulletins / support with applications inc. partnering) **NOT ALWAYS EASY / REVIEW & SUGGEST AREAS TO IMPROVE / EXPAND**
- Navigating the Regulatory Framework inc. Digital/Medtech/AI – **NEW STANDARDS / REQUIREMENTS**
- Connecting with key people / building relationships - **TAKES TIME / MANY TO CONSIDER**
- Identifying RWE contenders – **ALWAYS ON THE LOOK OUT**
- Critical Friend – having honest discussions **DEVILS ADVOCATE / THINKING ABOUT PERVERSE INCENTIVES / MARKET & COMPETITION**
- Helping people understand the current pulls / pressures / Structural set up – **FLUID LANDSCAPE**
- Helping Innovators think about how they address the big challenges – **HEALTH INEQUALITIES / ELECTIVE RECOVERY / GREEN etc**
- Making things simple **IF IT IS SIMPLE; LIKELY IT GETS DONE (e.g. Green / Social Value)**
- Helping think about Comms – Social Media / Blogs / Media Releases – **FINDING & PROMOTING THE STORY**

**ALL OF ABOVE KEY IN BUILDING THE BUSINESS CASE !**

There are a number of **online guidance prompts** (marked as a ?) available to you throughout the online form to help you when completing an application. It is **strongly advised** that you also read the relevant [Guidance for Applicants](#) before completing your application.

**Please keep the use of acronyms to a minimum.** Only use acronyms where a term is used frequently throughout the application. If you do choose to use an acronym, do not assume that the reader knows what it means, and be sure to define it when first used.

You are strongly advised to structure the longer sections of the application form (particularly the Project Description and Breakdown) in such a way that they can be read easily by reviewers. **The use of long passages of dense, unstructured text should be avoided.**

Schematics, tables, illustrations, graphs, and other types of graphics can be embedded to clarify the project plan but they should not clutter the central narrative. Images do not count towards the overall word count but inclusion of them to overcome word limits is not permitted. Images may only be included within the Project description and breakdown. **Images included in other sections will be removed from the application and not seen by reviewers.**

Members of the project team will need to be invited through the RMS via email to participate as team members, after which they must both **confirm and approve their participation**. Please ensure that all team members invited to collaborate on this application have confirmed their involvement and approval of the application form content before submission.

**Although confirming and approving an application can be done at any time during the submission of an application, you are strongly advised to do this well in advance of the deadline.**

If you have any queries with your application, you can contact the SBRI Healthcare Programme Management Office on 020 8843 8125 or [SBRI@LGCGroup.com](mailto:SBRI@LGCGroup.com).
